- Supports better telomere health and youthful aging*
- Includes more actives for more effective telomere support
- Helps neutralize harmful free radicals that can accelerate the aging process*
- Helps maintain efficiency of natural enzymes increasing antioxidant support*

Live Life. Age Gracefully.

The Importance of Telomeres

To grasp the power of IsaGenesis, it's important to understand telomeres, the very element IsaGenesis aims to support. Telomeres are the protective caps at the ends of our cells' chromosomes. They protect our DNA from damage like the caps on shoelaces protect the laces from unraveling.

As we age, our cells are constantly dividing and our telomeres shorten during the process. Oxidative stress, toxins and a poor diet can cause the process of telomere shortening to speed up, which means we age faster in life. And the faster we age, the sooner we face age-related health conditions down the road.

IsaGenesis aims to help telomeres do what they do best—protect your DNA and your cells and help you age healthily. When your telomeres and IsaGenesis come together, it's a beautiful thing. And the benefits of that union mean you can enjoy a healthier, more youthful life.*

Frequently Asked Questions:

What are the benefits of Product B IsaGenesis?

IsaGenesis goes beyond the symptoms of aging. IsaGenesis, especially when combined with Isagenix systems, is uniquely designed to offer what Isagenix believes to be the best telomere support on the market, resulting in powerful healthy-aging benefits such as youthful vitality, energy, and more.*

Who should use IsaGenesis?

IsaGenesis is ideal for anyone who wants to maintain their youthful energy and vitality. IsaGenesis uses scientifically sound ingredients, and is ideal for adults who want to gain the powerful, healthy-aging benefits that have been shown to healthy telomeres. IsaGenesis contains no animal by-products, making it safe for vegetarians and vegans to use. Do not consume IsaGenesis if you are pregnant or nursing.*

How do I use IsaGenesis?

One serving of IsaGenesis consists of two softgels. Adults 18+ using IsaGenesis should take two servings daily, once in the morning with breakfast and once at lunch or in the evening with dinner, depending on personal preference.
